DAILY NOTES

Travelled from Saskatoon to E.B. Campbell. Once arrived on site got dressed and met with RJ. Marshall had contacted RJ and wanted the Vibrosytm on Unit #8 and Unit #7 worked on. Set up cables for sole plates and air gap sensors. Pulled cable from generator into gallery tray and to vibrosystm cabinet. Measured off what was needed and cut/labelled cables. Pulled cables through flex. Vibrosystm technician showed us areas where 5 more sensors are to be installed but didn't know the locations.
